

Improve Your Child's Peace of Mind with Dyadic Services

BETTER MENTAL HEALTH AND WELL-BEING ARE AVAILABLE FOR YOUR CHILD AND FAMILY!

Children and families can now receive dyadic services through CalViva Health. These services are a form of treatment that targets children, family, and caregiver well-being. Best of all, it's a way to support your child's healthy progress and mental health.

Dyadic services are offered within your child's primary care structure. The services help to:

Pinpoint health issues and find follow-up support for children's mental and physical milestones

Locate other services that help with:

- Hunger
- Housing
- Social outreach and more

Guide the bond between parent/caregiver and child

Meet your family's needs – this can include mental health and social support concerns

Broaden and improve how childcare is given

Provide guidance for healthy growth and milestones – this can include support for issues like:

- Behavior concerns
- How parents and children relate
- Other concerns from the parent/caregiver

Parents or caregivers do not need to be enrolled in Medi-Cal to receive dyadic services. Nor do they have to have other coverage as long as the care is for the direct help of the child. Prior approval is not needed for dyadic services.

(continued)

Who can receive services?

Children and youth (under age 21), and their parent(s) or caregiver(s) are able to get the dyadic services benefit. **Note: The child or youth must be enrolled in Medi-Cal.**
